Applying for a plot, reserving a plot, or purchasing a plot within the Cemetery establishes that you acknowledge and agree that the City, in its management of the Cemetery and the plots and graves within the Cemetery, often must rely on very old historic records, some of which were in existence prior to the City's management of the Cemetery. The reliability of the Cemetery records through these transitions has been inconsistent, consequently the City does not guarantee the actual availability of any specific plot within the Cemetery that you have applied for, reserved or purchased. Further, in the event that the City discovers that a plot that you have reserved or purchased is not available, you acknowledge and agree that you waive any claim for, from or against the City arising from such discovery. Further, you agree that the City shall have the right to offer alternative arrangements or otherwise correct any discrepancies in the description of any plot or grave without any liability to you for such alternative arrangements or corrections.

By signing the Buyer agrees to the terms and conditions of this agreement with the City of Buckeye and knowledge they have read and understand the rules and regulations of the Louis B. Hazelton Memorial Cemetery.
