

## Street Sweeping Schedule

We strive to sweep our city streets twice monthly on your scheduled day of the week, Monday through Thursday; however - due to storms, man power, holidays, emergencies, equipment repairs, and other contingencies - we cannot specify exactly which week of the month your community will be swept. The sweeping schedule may be altered as required to respond to the city's needs.

Please look at the example of the map and directions below, and then click the interactive map and enter your address to find out what day your community will be swept.

Please call Public works at (623) 349-6800 if you have any questions.
