Summary: This 50-year Power Sales Contract will enable the City to receive Hoover Energy up to the monthly allocation of 670 kilowatts. Hoover Power is hydroelectric power generated by Hoover Dam. Arizona Power Authority (APA) will bill the City monthly for the capacity and energy the City is scheduled to receive and, for the first five years, APA will bill the City monthly for repayable advances in an estimated total amount of \$48,433. Arizona Public Service (APS) will deliver the Hoover Power to the City and will give the City a credit on its electric bill, resulting in a cost savings. A financial analysis of the Power Sales Contract has been completed and annual cost savings are predicted for each operating year from 2018 through 2067.
