APPLICATION PROCEDURES
FINAL PLAT

Important Information:

- A Final Plat is a subdivision that creates eleven or more lots, tracts, or parcels with or without dedications and easements.
- Final Plats shall be in substantial conformance to an approved and valid Preliminary Plat. All previous entitlement or preliminary plat stipulations shall be complied with and addressed.
- All required improvement and landscape plans must be submitted concurrently with the Final Plat. These plan sets must be ready to be issued prior to scheduling the Final Plat for a City Council Meeting.
- Requests for Maintenance Improvement District (MID), Street Light Improvement District (SLID) must be submitted and approved prior to or concurrently with the Final Plat.
- A Certificate of Assured Water Supply from the Arizona State Department of Water Resources is required prior to scheduling the Final Plat for a City Council Meeting.

The following information is provided to assist in the preparation and submittal of an application for a Final Plat or Re-plat for a property within the City of Buckeye.

1. Pre-Application Conference ("PAC") Process – **Prior to filing an application for a Final Plat, it is highly recommended that the applicant complete the PAC review process.** Forms to apply for a PAC review are available through the Development Services Department or on the City's website (www.buckeyeaz.gov).
2. *Application Filing* – For an application to be accepted, the applicant must provide all of the required information described on the submittal checklist at the time of formal submittal. It shall be the responsibility of the applicant to ensure the accuracy and completeness of the request. Applications received after 4:00 p.m. will be processed the next business day. Incomplete applications will NOT be accepted.

3. *Staff Review* – Once a complete application is received and processed, the submitted information will be assigned to a Planner and routed by a Plans Coordinator to appropriate City staff and agencies for review/comment. After the 1st review (approx. 16 business days), the Plans Coordinator collects and consolidates the comments, which are then returned to the applicant. Any technical questions should be addressed with the assigned Planner who will facilitate any needed communications or meetings with the appropriate city departments.

The applicant is then responsible for addressing the comments and submitting revised plans. Upon resubmittal, the staff review process will begin again albeit at an expedited pace (approx. 8 business days). In some cases, it is necessary to have several resubmittals before moving the request forward in the process.

4. *Administrative Review (Minor Re-plats)* – Once all staff comments have been addressed, the assigned Planner will prepare a report describing and evaluating the proposed project and making a recommendation for action. The Director, taking into consideration staff recommendation, will approve, approve with stipulations, deny the request. The documents will then be recorded by the City.
5. *City Council Review (Final Plats and Major Re-Plats)* – Once all staff comments have been addressed, the assigned Planner will schedule the request for a City Council meeting and prepare a report describing and evaluating the proposed project and making a recommendation for action. Council at a public meeting, taking into consideration staff recommendation, will approve, approve with stipulations, deny the request. The documents will then be recorded by the City.
6. *Inactive Cases* – All applications need to be actively pursued to a decision. If the City has completed any and all appropriate reviews and no activity has occurred for the continued processing of the application on behalf of the applicant for at least for one hundred eighty (180) days, the application will be considered inactive, deemed to be withdrawn, and the file will be closed. Thirty (30) days prior to the inactive date, staff will notify the applicant in writing of the impending action. The applicant may submit a written request for the application to remain active along with an explanation for the inactivity. The Development Services Director may grant an extension for up to one hundred eighty (180) days for good cause if there is reasonable belief that the application will be actively pursued during the extension period.
