

# Broadway Road Water Campus - Project Update

## Broadway Road Transmission Pipeline

### June 5 – August 7, 2020

Scheduled for Friday, June 5, until approximately August 7, installation of a 16" water transmission pipeline will take place on Broadway Road from 237<sup>th</sup> Avenue west to Apache Road. **To accommodate this work, Broadway Road will be closed to traffic between 237<sup>th</sup> Avenue and Apache Road, June 5 – August 7, with local traffic only permitted for residents within the closure. Access to Sonora Vista will remain open at 237<sup>th</sup> Avenue.**

As the pipeline construction in Broadway Road progresses towards Apache Road, the **intersection of Broadway Road and Apache Road will be closed in all directions, with this work and closure currently scheduled to take place from July 10 until August 7.** Detour signage will be in place to direct travelers around the closure area.

The Broadway Road Water Campus is a multi-phased, multi-year project to upgrade the city's water infrastructure, add to our water portfolio and improve the water quality for Buckeye residents. When completed, the facility will include new wells, transmission and distribution lines, storage tanks, treatment facilities and booster pumps to service the local area. It will treat approximately 6 million gallons of water a day (mgd) with the ability to expand to 16 mgd as needed.

**Thank you for your patience during this project.**
